

# My Giraffe Report

B

By Kammie

Introduce the animal.

Would you like to

know about gir

giraf fesa? They are

50

pretty.

# Where does it live?

They live in

Africa.

# What is the habitat like?

Grasslands are

large, flat areas

with lots of

grassa and a few

bushes and trees.

What does it eat?

Giraffes are

herbivores. They eat

leaves from tall trees.

Who are the predators?

Lions are the

main predator to

the giraffe.

What about the baby?

a baby giraffe is

called a calf

when they are born

They are 6 feet tall!

# Did you know?

Did you know that

grapples can grow to

be almost 20 feet tall?

They can weigh up

to <sup>40</sup> 2300 pounds! Even

though they were ~~big~~

giraffes can see very

well. They can run

away when they see

danger.

Now you know...

As you can

see there is a

lot to know about

Giraffes
