

# My Lion Report

By Sawyer

Introduce the animal.

Would you like

to know about lions?

They are so cool!

# Where does it live?

They live in Africa.

90 W

# What is the habitat like?

Grass lands are large

flat areas with lots of

grass and a few bushes

antrees.

What does it eat?

Lions are carnivores.

They eat zebra, giraffe

and buffalo.

Who are the predators?

The tiger is the king of the

jungle but the hyena and

leopards sometimes

eat the Cabs.

What about the baby?

A baby lion is called

a cub. All lion cubs

are both blind and

don't open their

eyes until they are about

two weeks

old.

# Did you know?

Did you know that

lions can weigh up

to 400 pounds? They

are called the

King of the jungle

Lions live in groups

called prides. The males

have manes.

but the females do not

Lions are very lazy and

can sleep up to 20 hours

each

each day

Now you know...

As you can see, there

is a lot to know about

divisions.
